

Washington – Mobile Crisis Care Options

When someone is experiencing a severe mental health crisis, they may need face-to-face response urgently. Mobile crisis providers will respond to wherever the crisis is occurring in the local community and will work to stabilize individuals in their home setting.

The providers listed below represent all available mobile crisis providers in the state – the areas they operate in, their phone number, hours of operation. Areas without mobile crisis services are not listed.

Note: Cost-share may apply for any mobile crisis services billed to a Commercial health plan.
