

### National Gold Card waiver status now available

UnitedHealthcare is launching a national prior authorization waiver program on Oct. 1, 2024 – the UnitedHealthcare Gold Card program. It will waive select prior authorization requirements for eligible network (contracted) providers.

Optum Behavioral Health manages the Gold Card waiver reviews and notifications for all network behavioral health services providers, on behalf of UnitedHealthcare. Eligible providers were notified in early September whether or not they've qualified for the prior authorization waiver.

For complete details, review the [Program Overview](#) and [Quick Reference Guide](#).

#### Key things to know:

#### Who's eligible to receive a waiver?

The Gold Card program is open to any network clinician who provides intensive outpatient services, partial hospitalization programs and/or psychological testing to eligible member groups.\*

#### How do I know if I have a Gold Card prior authorization waiver?

If you provided any of the eligible services to members over the last 2 years, you received either an email or letter in the mail in early September. The notice outlines whether or not you qualified for the waiver. You can also check your status in the Provider Express secure portal. Step-by-step instructions are in the [Quick Reference Guide](#)

#### What does it mean if I've qualified for a waiver?

Beginning Oct. 1, you will not need to submit prior authorization requests for 17 procedure and revenue codes for intensive outpatient services, partial hospitalization programs and psychological testing.

Instead, you'll need to complete a short, simple Advance Notification for services through the Provider Express secure portal before rendering services to members.

#### What if I didn't qualify for a waiver? What happens next?

If you did not qualify for a waiver, you must continue to submit prior authorization requests for all services that require approval before services are rendered. You can review prior authorization requirements via the:

- [Provider Express secure portal](#): Log in with your One Healthcare ID and password to check member eligibility and benefits.
- [Prior authorization webpage](#) on Providerexpress.com: Lists are available for Medicaid (by state), Medicare Advantage, Commercial and Individual Exchange plans.

#### What if I disagree with my waiver status?

You may request a review of your Gold Card status by emailing [bh\\_gold\\_card@optum.com](mailto:bh_gold_card@optum.com). Requests must be received by Oct. 3, 2024.

#### Questions?

Email Optum Behavioral Health at [bh\\_gold\\_card@optum.com](mailto:bh_gold_card@optum.com).
