

## Refer Sharp Health Plan members to network laboratories

---

### Overview

Laboratory expenses are among the largest contributors to overall healthcare costs.

To help manage these costs and ensure quality care, Optum, in partnership with Sharp Health Plan, requests participating providers refer members to Sharp Health Plan in-network laboratories (based on the member's benefit plan).

### Next Step

Sharp Health Plan members who need outpatient lab work related to mental health or substance use disorder treatment, should be referred to laboratories contracted directly with Sharp Health Plan.

In-network laboratories include:

- Laboratory Corporation of America (Labcorp)
- Pacific Rim Pathology
- Quest Diagnostics

### Questions?

If you or a Sharp Health Plan member have questions about coverage for outpatient lab services for mental health or substance use disorder treatment, please contact Sharp Health Plan Customer Care at **1-800-359-2002**.
