

New York City Employees PPO Plan members can access the Optum Behavioral Health Network in 2026

The New York City Employees PPO (NYCE PPO) Plan will be using the United Behavioral Health network, which operates under the brand Optum, to provide members with a high-quality network for mental health and substance use disorder treatment. This plan will be available to NYCE PPO plan employees, non-Medicare retirees and their dependents located nationwide beginning **Jan 1, 2026**.

With this agreement, you are considered in network for the NYCE PPO membership, and the terms of your Optum Participation Agreement apply.

Please note: Optum is not managing the benefits for the plan. As a United Behavioral Health network provider, you'll need to follow the NYCE PPO Plan workflows and processes when you provide service(s) to their members. These are different than how you get information and manage claims for Optum or UnitedHealthcare members. Please review the information below to ensure that you receive accurate, efficient and timely payment for the service(s) you provide to NYCE PPO Plan members.

NYCE PPO Plan members formerly utilized the Carelon network. As of January 1, 2026 NYCE PPO members will utilize the national Optum Behavioral Health network.

Top 2 things you need to know

1. **New Payer ID:** Use **Payer ID 26992** to manage your NYCE PPO Plan claims. If you aren't enrolled to receive ERAs from this Payer ID, please do so today with your clearinghouse. Be sure to set up your payment method through NYCE PPO as well to help ensure prompt payments.
2. **New process:** Use the secure [NYCE PPO Provider Portal](#) (not the Provider Express secure portal) to check benefits, submit prior authorization requests, and manage claims and appeals for this plan. This information will not be available through the Optum Provider Express secure portal. But – you can use the same One Healthcare ID to log into both portals. You do not need to create an ID specifically for the NYCE PPO provider portal.
