- **Claim Total** is the sum of all new (initial) claim payments listed on the PRA
- **Prov Adj Amt Box** for each claim will show the specific payment for that claim
- **Total Adjustment** is the sum of all overpayments and recoupments listed (negative and positive amounts)
- **Prov Pay Amount** is the sum of the Claim Total plus the total of all items marked as OVP, minus all items marked as OVR

Providers: You will need to update your Accounts Receivable system when a recoupment occurs

Where Does the Recoupment Money Come From?

A recoupment is not taken from the member level – it is taken at the check level.

Example

Dr. Smith informed on 5/1/25 with OVP notice on their remit in the amount of \$500.00. The overpayments occurred on claims for 5 members.

- Member 1 / John Johnson / \$75.00
- Member 2 / Sally Jones / \$150.00
- Member 3 / David Adams / \$75.00
- Member 4 / Lilly Mae / \$100.00
- Member 5 / Donna Ling / \$100.00

On 6/5/25 Dr. Smith receives a remit paying services for 20 other patients, none of which are the 5 listed above. The full remit amount is \$1250.00 but the check amount is \$1000.00.

Upon closer review, Dr. Smith finds that \$250.00 of this remit went towards the above noted recoupment.
