

### MnFIRE Assistance Program

---

Prior authorizations are required for MnFIRE Assistance Program (MAP) services. Firefighters or family members must call the MnFIRE Helpline at **1-888-784-6634** and select the MAP Program choice (Option 1).

While Employee Assistance Program (EAP) claims are paid at the same contracted rates as routine outpatient therapy services, MAP claims are paid at a premium rate for in-network MnFIRE providers.

#### Procedure codes for MAP reimbursed at \$150

Unlike traditional EAP, Optum reimbursement is \$150 **premium rate** for MAP services. Appointments should be scheduled within 5 days of request.

**90832HJ:** 30-37 minute individual therapy session

**90834HJ:** 38-52 minute individual therapy session

**90846HJ:** Family therapy without member in attendance

**90847HJ:** Family therapy with member in attendance

**90853HJ:** Group therapy other than family

Extended therapy visits code (90837) and formal diagnostic assessments code (90791) are not covered for MAP.

## Authorization submission helpful tips

- Authorization letters are sent to members by email or United States Postal Service. Please ask the member for this verification letter before providing services
- You can verify authorization details by logging in to the Provider Express secure portal> Auth Inquiry tool

## Claim submissions

- When using the Provider Express secure provider portal for claim submissions, providers can select BH or EAP
- Select EAP and the HJ modifier will automatically populate for MnFIRE claims

If the services are provided virtually, (i.e., via phone or video) the 02 Place of Service code must also be included. All claim submissions must include:

- The MAP authorization
- An HJ modifier following the CPT code

## Questions?

For additional information or questions, please [email Kayla Diesslin](#), the dedicated MAP Provider Relations Advocate or call Optum MAP at **1-866-694-9662**.
